PUSHING HAWLEY-SMOOT TARIFF MEASURE

REPUBLICANS OF SENATE MOVE TO HASTEN ACTION

CONFERENCE ATTENDED BY 37 OF 55 REPUBLICAN SENATORS IS HELD

NOTHING SAID ABOUT DIVISIONS WITHIN PARTY WHICH ARE WORRYING LEADERS

By PAUL R. MALLON
(United Press Staff Correspondent)

Washington, Sept. 19. — Senate republicans moved today to hasten action on the Hawley-Smoot tariff bill in the hope of passing it before congress reconvenes in regular session next December.

At a conference attended by 37 of the 55 republicans in the senate it was decided to start daily sessions next week at 11 A. M., rather than noon, the present meeting time. All republicans were urged to be in their seats promptly in order to avoid delays in obtaining the necessary quorum.

Although the conference had been expected to canvass the strength of those favoring the tariff bill in its present form, nothing was said about divisions within the party which are worrying administration leaders. The presence of three progressives who have shown sympathy toward the democratic opposition, it was felt, may have played a part in failure of the conference to discuss factional differences.

A suggestion that republicans refrain from speaking at length on the bill, in order to save time and allow the democrats to talk themselves out was rejected on the ground that each senator must be left to determine for himself whether he is to speak and how long.

Shortly before the general conference the newly formed "lumber bloc" held a meeting in the office of Sen. Johnson, republican, Calif., to decide what schedules they will support as a unit. The bloc proposes to fight for increases in the lumber, shingle and manganese schedules but the details of its program have not been worked out.

Nothing definite was accomplished today but further meetings are to be held. Those who conferred with Johnson were Senators Oddie of Nevada, Stiewer of Oregon, Thomas of Idaho and Jones of Washington, all republicans. All but Johnson later attended the republican conference. It is understood that Senator Borah, republican, Idaho, has been invited to join the northwestern bloc but so far has refused. The group, if effectively united, may be able to win the increases it wants as so large a number of votes cannot be sacrificed by the administration majority.

Washington, Sept. 19.—The senate today opened debate on the disputed milling in bond section of the tariff bill with lines drawn between Buffalo millers and American grain growers.

The senate finance committee reported an amendment to strike out a provision of the house bill to require payment of duty on flour made from Canadian wheat, milled in this country and exported to Cuba. The duty would be equal to the Cuban preferential rate.

Chairman Smoot declared imposition of such a tariff would wipe out the Buffalo millers who use the Canadian wheat, without aiding the American wheat farmers.

Members of the farm bloc argued the Buffalo millers would use American wheat instead of Canadian wheat if the house provision was retained.

Senator Capper, republican, Kansas, author of two amendments to restore the house provisions, read letters from farm organizations supporting his amendments. He also read a letter from southwest millers denying the milling business could be lost to Canada.

HUGE BALLOON SAVED FROM FALL INTO LAKE ERIE

CREW OF THE HELENE, A SMALL YACHT, RESCUES 4 DETROIT MEN

MEN IN BASKET WERE EMPTYING SAND WHEN NEAR WATER

Toledo, O., Sept. 19.—(U.P.)—A huge balloon carrying four Detroit men and cruising away from that city, was saved from falling into Lake Erie last night by the crew of the Helene, a yacht owned by C. O. Miniger, president of the Electric Auto-Lite Company.

The occupants of the balloon were: Dr. George W. Lagalley, owner; H. A. Habermas, J. A. Smith and Roger K. Lee. The big gas bag left Detroit at noon yesterday.

Capt. L. N. Lockwood of the yacht crew sighted the balloon hovering low over the lake. The men in the basket were emptying their sand bags to gain altitude. The yacht was steering off its course, signalled to the balloonists and a line was dropped. It was towed safely in.

BUILDERS ARE AMALGAMATING IN NEW YORK

MERGE DISTRIBUTION FACILITIES WITH TOTAL ASSETS OF $250,000,000

JOHNS-MANVILLE CORPORATION, INSULATE CO. AND U. S. GYPSUM CO.

New York, Sept. 19.—(U.P.)—The New York Herald Tribune said today a merger of three concerns had brought about the largest amalgamation of distribution facilities in the history of the building industry with total assets of $250,000,000 involved.

The companies in the merger, according to the Herald Tribune, are the Johns-Manville Corporation, the Insulate Company and the United States Gypsum Company. Confirmation of the transaction was made last night by J. M. Kamps, general sales manager of the Insulate Company. No exchange of stock was involved, he said, but he revealed there was a definite pooling of distributing and manufacturing interests.

Many concerns in the west and northwest will be affiliated with the three companies, including the Backus-Brooks Company, the Great Lakes Paper Co., Ltd., the International Lumber Co., the National Pole and Treating Co., the Minnesota, Dakota and Western Railway, the Fort Frances Pulp and Paper Company, Ltd., the Ontario and Minnesota Power Company, Ltd., the Seine River Improvement Company, Ltd., the Kenora Paper Mills, Ltd., the Keewatin Lumber Co., and the Kenora Development Company, Ltd.

It was estimated those affiliations would bring the total assets to $1,000,000,000.

All three of the chief concerns will continue to operate under their present managements, Kamps said.

The three concerns have many foreign contacts, it was said, and a virtual world-wide distribution system will be available for their products.

Renewed Trouble Forecast in Arabian Desert, London Press Gets Dispatches From Near East

KING IBN SAUD OF THE HEDJAZ MARCHING AGAINST INSURGENT CHIEF

FEARED REPERCUSSIONS WILL BE FELT IN IRAG, TRANSJORDANIA, ETC.

London, Sept. 19.—(U.P.) — Renewed trouble in the Arabian desert was forecast in dispatches to the London press from the near east in the last few days.

A dispatch to the Daily Mail from Jerusalem said today that it was believed a serious situation was developing in Arabia, where King Ibn Saud of the Hedjaz was marching against Faizal Ed Dowish, the insurgent chief of the Wahabi tribesmen. It was feared repercussions would be felt in Irag, Trans-Jordania and Palestine, the dispatch said.

A Jerusalem dispatch to the Daily Mail Monday reported Ibn Saud was massing 30,000 troops for a final offensive against Faizal Ed Dowish.

The fierce Wahabi chieftain, allied with Sultan Bijad, has never submitted to the authority of King Ibn Saud and from time to time has harried the Irag border in tribal raids. His power was temporarily checked last April when he was defeated by Ibn Saud, his son killed and he himself wounded.

SURVEY DAMAGE IN FOREST FIRES ON WEST COAST

INNUMERABLE OUTBREAKS IN 3 STATES ARE BEING CHECKED OVER

CONSERVATIVE ESTIMATES PUT TOTAL DAMAGE AT OVER $10,000,000

San Francisco, Sept. 19.—(U.P.) — As the smoke cleared away from the forest fire situation on the Pacific coast today a survey of the damage caused by innumerable outbreaks in the three states was possible. Conservative estimates placed the damage at more than $10,000,000 and the territory blackened by the fires at nearly 150,000 acres.

A miniature cloudburst has put an end to the trail of destruction caused by disastrous forest fires in Washington, Oregon and California.

The only fire of serious proportions engaging the attention of fire fighters last night and early today was that near Woodside, Calif. A fire threatened several valuable estates near there as flames swept through heavily wooded sections of the La Honda Canyon.

NOVA SCOTIA MOTOR SHIP IS FIRED UPON

SHAWNEE REACHES HALIFAX LAST NIGHT, HAVING SAILED FROM BERMUDA

REPORTS IT WAS FIRED ON BY THE U. S. COAST GUARD CUTTER "NO. 145"

Montreal, Sept. 19. — (U.P.) — The Nova Scotia motor ship Shawnee, which reached Halifax last night from Bermuda, was reported in advices here today to have been fired on by the United States coast guard cutter "No. 145" off New York.

The skipper, Captain John McLeod, of Halifax, charged that Friday night while his vessel was about 26 miles off New York, the "No. 145" fired five shots at her without warning.

He further charged that the cutter showed no lights. The stern port quarter of the Shawnee was hit by the shells and part of her rail was carried away.

Captain McLeod declared he will send a formal protest to Ottawa today.

Washington, Sept. 19.—Five shots, three of them blanks, were fired at the Canadian motor ship Shawnee off Ambrose light vessel on the night of September 11 by a coast guard patrol boat when the Shawnee refused to obey signals to stop, Rear Admiral F. C. Billard, coast guard commandant, said today.

Billard's formal statement described the incident as follows:

"On the night of September 11, a coast guard patrol boat picked up a vessel running without lights, which appeared to be an American in the vicinity of Ambrose light vessel. The coast guard patrol boat gave chase, holding the vessel in the beam of her searchlight and repeatedly blowing whistles to stop. The vessel did not stop.

"The coast guard boat then fired three blank warning shots, and still the vessel did not stop. The coast guard boat then fired two shots in the direction of the craft, which then slowed down. There was no name on the stern or hailing port to identify her and the man in charge refused to give the name of the vessel.

"The vessel was then allowed to proceed and the name Shawnee was made out on her bow. The coast guard has no further information concerning the matter."

MAC MILLIAN RETURNS FROM FAR NORTH AREA

VETERAN ARCTIC SCHOONER BOWDOIN PUSHES WAY THROUGH FOG

BRINGS THE COMMANDER HOME FROM HIS 12TH EXPEDITION TO ARCTIC

Newagen, Maine, Sept. 19.—(U.P.) — Out of a curtain of fog blanketing north Atlantic waters the veteran Arctic schooner Bowdoin came today, bringing Lt. Commander Donald B. MacMillian home from his 12th expedition into the far north.

When MacMillian and his fellow explorers set foot on American soil here it marked the end of one of MacMillian's most perilous adventures beyond the Arctic circle.

MacMillian and his nine associates, while admitting that the expedition had proved extremely hazardous at times, declared it to have been very successful.

MacMillian believed establishment of the first Eskimo schoolhouse at Nain was one of the highlights in the accomplishments of his latest expedition.

"We built the school house with the understanding that English should be taught there," the explorer said. "It has been the policy of the German-Moravian missionaries to keep the English language away from the Eskimo on the theory that it would protect him from the white man if he could not speak the white man's language.

'As the first teacher in the new school we engaged Miss Katherine Hettasch, daughter of the Rev. Paul H. Hettasch, who has been a missionary there for 36 years. Next we are going to take up an American college girl to serve as Miss Hettasch's assistant. The school started with 40 pupils."

MacMillian said the Eskimos were so appreciative of the new school that when members of the expedition left Nain, an Eskimo brass band escorted them out of the harbor.

From Nain the expedition went to its scientific station 25 miles westward at the head of the Anetalak Bay, where members occupied a 10-room house guarded against the extreme cold by triple floors, double walls and double windows.

The explorer said he found his ice-mobile—an innovation in connection with his latest expedition—of greatest assistance. In the ice-mobile, which is five times faster than a dog-team, members of his expedition covered approximately 2,000 miles, he said.

SIMPLE RITES FOR DR. FOLWELL ON SATURDAY

SERVICES TO BE CONDUCTED IN HOLY TRINITY EPISCOPAL CHURCH, MINNEAPOLIS

NO SERMON TO BE DELIVERED AT REQUEST; PUBLIC ASKED TO WITHHOLD FLOWERS

Minneapolis, Sept. 19.—(U.P.) — The same simplicity which marked the life of Dr. William Watts Folwell, educator, historian and first president of Minnesota University, will be borne out when last respects are paid here Saturday.

In the Holy Trinity Episcopal church where the 76-year-old renowned educator worshipped for more than a half century, simple services will be conducted after which the body will be taken to Lakeside Cemetery for burial.

No sermon will be delivered, in accordance with Dr. Folwell's wishes, and the public has been asked to withhold flowers.

Dr. Folwell, whom Governor Theodore Christianson called the "grand old man of Minnesota," died suddenly Wednesday following a prolonged attack of neuritis.

Only a few weeks ago he completed his last book, "Reminiscences," which followed his famous work, "History of Minnesota," in four large volumes.

The noted educator and scholar became president of Minnesota University in 1869 which post he held until 1884. Since then he had been president emeritus and kept in constant touch with the institution.

Dr. Folwell is survived by his widow, daughter Mary and two sons, Russell of Chicago and William, a regular army captain of Minneaoolis.

2 BABIES ARE ARRAIGNED

CHARGED WITH MANSLAUGHTER, FATALLY KICKING 5-YEAR-OLD IN STOMACH

Patterson, N. J., Sept. 19.—(U.P.) — Two "babies"—one four years old and the other six—were arraigned today on charges of manslaughter.

Thomas Fiorillo, 4, and Julius Fiorillo, 6, were brought into court on complaint of Mrs. Vita Lopresta, that while playing they kicked her son, Frank, 5, in the abdomen causing his death.

The two little boys were accompanied by their father and clung to him, whimpering occasionally. They were paroled to the father pending grand jury action.

LEO C. HUMBERT TO FACE CHARGES AT ST. CLOUD SOON

COUNTRY BANK ROBBERY WAS COMMITTED SEPT. 12 BY ONE MAN WHO STOLE $800

CASHIER IDENTIFIES PICTURE OF HUMBERT AS THAT OF THE ROBBER

Chicago, Sept. 19.—(U.P.)—Within an hour after his arrest here today, Leo C. Humbert, 26, was started to St. Cloud, Minn., to face charges of bank robbery. He is wanted in connection with the robbery of the State Bank of Meier Grove, Minn., on Sept. 12.

The robbery was committed by one man who obtained $800 from the cashier. The cashier identified a picture of Humbert as that of the robber.

Humbert was traced from Minneapolis to Louisville, Ky. He wrote a hotel in Minneapolis asking that a pair of shoes he left there be forwarded to a Chicago hotel. When he arrived at the hotel here this morning he found Sheriff B. E. Schoemer of St. Cloud and James J. Quigley, county attorney of Stearns county, Minnesota, waiting for him.

Humbert denied all connection with the robbery but said he would be glad to go to St. Cloud and "get it over with."

BILL DRAWN TO PLACE ALL AIR SERVICE UNDER I. C. C.

BEING FRAMED BY SEN. SAM G. BRATTON FOR INTRODUCTION IN SENATE

By PAUL R. MALLON

Washington, Sept. 19.—Legislation to place air transport fares, safety devices and time schedules under the jurisdiction of the interstate commerce commission which has control over like matters for railroads and bus lines is being framed by Senator Sam G. Bratton, democrat, New Mexico, for introduction in the senate.

Already the idea has gained widespread favor in the senate over the opposition of the most air-minded of the senators, Bingham, republican, Connecticut, who was an airport commander in France. Bingham contends the restriction would interfere with natural development of the fast growing air lines which stretch across the country carrying thousands of passengers each day.

"I believe it would help their business," Bratton told the United Press, explaining the scope of the legislation he is working out. "It would stabilize air transportation and increase public confidence in air travel.

"The railroads fought every step against helpful federal regulation, but now it has been proven of benefit to them."

Temporarily Bratton has been blocked in his efforts to obtain adoption of a resolution for a senatorial investigation of the air transport situation with a view of enacting remedial legislation.

Republican leaders have declined to let the matter be interjected at this point in the tariff debate but have offered to bring it up later.

Tariff legislation is making little progress, it was pointed out. In the two weeks it has been under consideration, only two controversial amendments have been acted upon. Both were of comparatively minor importance.

The newly formed far-western bloc was called to meet today in the office of Senator Hiram Johnson of California to lay plans for their fight to get adequate tariff protection for their states, particularly restoration of the duties on shingles and logs. Members of the group predict the tariff bill cannot be passed without their support and they have served notice already upon the leaders that the bill must be radically changed if they are to vote for it.

The judiciary committee is meeting to consider the unpublished charges made by Cairoli Gigliotti, president and general counsel of the Immigrants' Legal Aid Society against Sen. Deneen, republican, Illinois. The charges have not been made public but are understood to be of a political nature. Indications are the committee will decline to go into them.

Secretary of State Stimson will be called before the senate foreign relations committee probably next Wednesday in connection with reports the committee has privately received concerning affairs in Cuba.

The committee wants to ascertain the facts in possession of the state department about the regime of President Machado and its relationship with American interests.

Tomorrow the Shearer naval propaganda inquiry will open before the senate naval affairs sub-committee.

Paving State Trunk Highway No. 2

BRAINERD has done everything possible to urge the advisability of paving State Trunk Highway No. 2. Resolutions adopted by the County Commissioners, the Chamber of Commerce and other organizations are on file with the State Highway Commission, and C. M. Babcock has given the assurance that paving will come as soon as possible.

Duluth, on the other hand, through both its papers, keeps on urging the paving and the Duluth Herald recently carried this editorial comment:

The other day in these columns The Herald said that while the state highway department no doubt does the best it can to meet the needs of the state, paving first where traffic is densest, it is unintentionally unfair in not allowing for cases where the traffic would be much greater than it is if driving conditions encouraged it instead of discouraging it.

And The Herald cited State Highway No. 2, especially between Duluth and Brainerd. This highway has traffic enough as it is to warrant paving, but it would have much more traffic than it has now if it were not that other highways that are paved tempt travelers to pass up Duluth and go to the Twin Cities.

The Herald hears now of additional proof of this, in the case of people who have to travel between Duluth and Brainerd but who, to avoid the gravel road and get the advantage of a paved road, are traveling 286 miles to make the journey that is only 125 miles directly over Highway No. 2.

Highway No. 2 is classified in the weekly road reports of the highway department as "good," and rightly so. It is, on the whole, pretty nearly as good as graveled highways carrying much traffic can be. That is, it is splendid one morning after the maintenance crews have done their work, and by night, after much traffic has passed over on a dry and dusty day, it is considerably corrugated and in places quite bumpy.

So, The Herald learns, not a few people who travel between Duluth and Brainerd are following the pavement down No. 1 below Forest Lake, over the Minneapolis cut-off around to Anoka, and up the paved highways, No. 3 and 27, to Brainerd—286 miles to reach an objective that is only 125 miles away!

And one of these drivers says that he makes this 286 in only an hour and a half more than it takes to make the 125 miles of graveled highway.

All of which goes to prove again that one of the most pressing calls for pavement instead of gravel is State Highway No. 2.

100 CANDIDATES PUT THROUGH A HARD SCRIMMAGE

COACH HOPES TO SOON ROUND OUT 1929 MINNESOTA GRIDIRON MACHINE

2 COMPLETE BACKFIELDS ARE NOW FUNCTIONING SMOOTHLY

Minneapolis, Sept. 19.—(U.P.) — Another bruising scrimmage session was promised today as Dr. C. W. Spears continued his search through more than 100 candidates for the four first string linemen needed to round out the 1929 Minnesota gridiron machine.

With two complete backfields functioning smoothly, Coach Spears' first concern appeared to be the development of four men to take the places of George Gibson, Kenneth Haycraft, Edgar Ukkelberg and Duke Johnson, all lost through graduation.

The veteran Minnesota candidates received their most radical shift on Wednesday when Wayne Kakela, rawboned center, was sent to tackle opposite Bronko Nagurski. Followers of the team saw in that move an opportunity for Nagurski's return to his natural position at full back.

One good tackle might be found to pair with Kakela, they declared, and the plunging Nagurski, if sent to full back, would add many yards to the Gophers' gains this season.

Harold Barnhart reported today for his second day's drill and was paired with Win Brockmeyer and Paul Kirk, half backs, and Quentin Burdick, full back, on one of the alternating backfields.

On the other first string back field were Clarence Munn at full back, Bill Bromwel and Russ Lekselis at the halves and Sommers at quarter.

The New York Giants pounded Blake and Nehf for sixteen hits and beat the Chicago Cubs, 7 to 3.

Cincinnati advanced within one game of sixth place in the National League by beating the Phillies, 9 to 5.

PHILADELPHIA IS FAVORITE IN THE WORLD'S SERIES

New York, Sept. 19.—(U.P.)—The first major wager on the world series was reported today by Wall Street brokers with Philadelphia the favorite.

J. S. Fried and Company reported [illegible] had a wager of $15,000 against [illegible],000 that the Cubs would win. A smaller wager was $5,500 against $5,000 on the Cubs.

TWO SLAIN GANGSTERS 'TAKEN FOR A RIDE'

Chicago, Sept. 19.—(U.P.)—Somewhere in or near Chicago police believed they would find today the bodies of two slain gangsters, "taken for a ride." An eye witness last night told of seeing the two kidnaped by four armed men and whisked away in a touring car.

According to the story told to the police, the kidnapers forced the car, in which the two unidentified men were riding, to the curb. Three men jumped out of the touring car while the fourth, a sawed-off shotgun across his knees, remained at the wheel.

"Come out of there, you stool pigeons. You won't squawk any more," one cried and the two were forced into the car of their abductors, the informant said. Both cars were driven away by the supposed kidnapers.

CHARGED WITH BUYING, SELLING LIVE SQUIRRELS

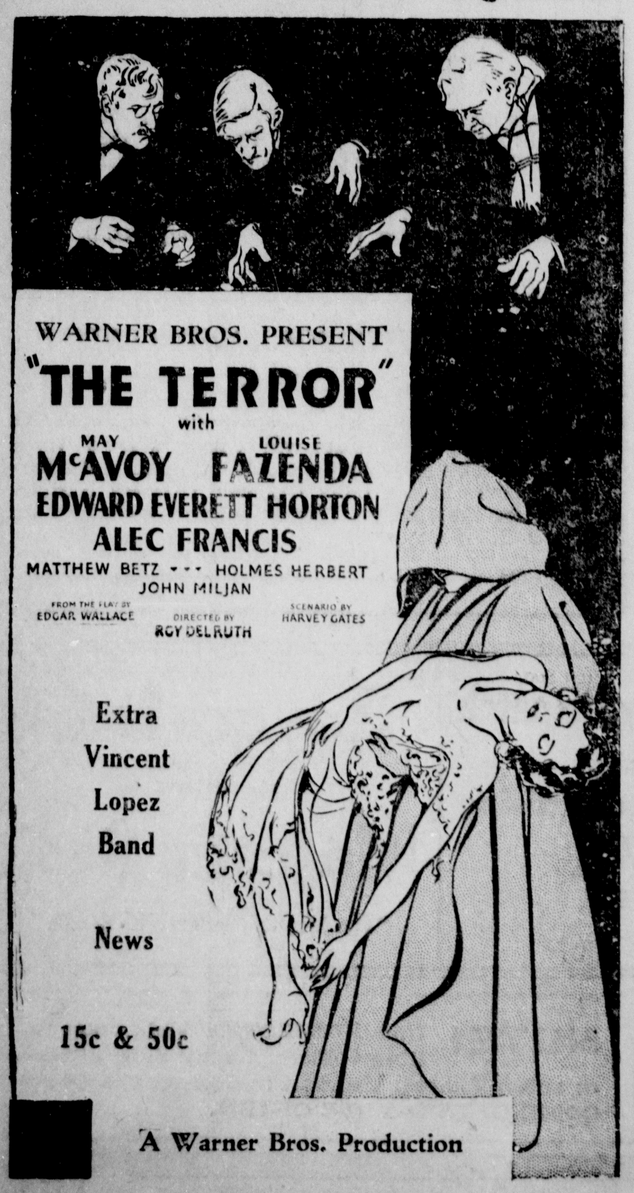

Red Wing, Minn., Sept. 19.—(U.P.)—W. F. Neff, manager of a local produce company, paid $100 fine when arraigned in justice court and was charged with possession of 14 live grey and fox squirrels. Neff was arraigned on complaint of Phil Nordeen, who testified the produce man was buying and selling the animals.

Stomach Disorders First Revealed by Coated Tongue

Your tongue is nothing more than the upper end of your stomach and intestines. It is the first thing your doctor looks at. It tells at a glance the condition of your digestive system—and physicians say that 90% of all sickness starts with stomach and bowel trouble.

A coated tongue is a danger signal of those digestive disorders which lead to so many kinds of serious illness. It tells why the least exertion tires you out; why you have pains in the bowels, gas, sour stomach, dizzy spells.

Coating on the tongue is a sign that you need Tanlac—the medicine which has helped thousands who were physical wrecks from stomach and bowel troubles—who had "tried everything" in vain and about given up hope.

Tanlac contains no mineral drugs; it is made of barks, herbs and roots. Get a bottle from your druggist today. Your money back if it doesn't help you.

LINCOLN P. T. A. START NEW SEASON

Teachers and Parents Get Acquainted at First Meeting of Year

Mrs. Iver Hagen Elected Secretary Upon Resignation of Mrs. Stallman

Teachers of the Lincoln school and parents of children attending the school are better acquainted today as a result of the first meeting of the Lincoln P. T. A. last evening at the school which took the form of a "get acquainted" gathering.

The meeting was conducted under auspices of the executive committee, Mr. and Mrs. Frank E. Little, Mrs. R. H. Paine, Mrs. O. B. Johnson and Mrs. Wallace Stallman.

Mrs. L. H. Hohman, secretary of the playground committee reported that playground equipment at the school was in fine condition.

Tentative plans were laid for the holding of an entertainment this fall for the raising of money to carry on the work of the P. T. A. this year.

President Frank E. Little was on motion instructed to appoint committees who will report progress of plans at the next meeting.

Mrs. Wallace Stallmen tendered her resignation as secretary of the association, the vacancy being filled by the appointment of Mrs. Iver Hagen.

The P. T. A. plans to install a question box in the school so that parents and teachers may offer suggestions and ask questions regarding the work of the association.

President Little was requested to appoint a committee to choose a suitable painting, for the class attendance competition to be conducted in the school again this year. Miss Irene Lowey's room won last year's contest.

No More Piles

Pile sufferers can only get quick, safe and lasting relief by removing the cause—bad blood circulation in the lower bowel. Cutting and salves can't do this—an internal remedy must be used. Dr. Leonhardt's Hem-Roid, a harmless tablet, succeeds because it relieves this blood congestion and strengthens the affected parts. Hem-Roid has a wonderful record for quick, safe and lasting relief to Pile sufferers. It will do the same for you or money back. H. P. Dunn, Johnson's Pharmacy and druggists everywhere sell Hem-Roid with this guarantee. advt.
